Profile

Software Engineer experienced in developing high-performance web applications. Skilled in using advanced Node.js algorithms to improve performance and scalability, with expertise in Node.js, JavaScript, modern frameworks, and designing efficient backend systems. I have a strong understanding of database management, and optimization, and experience with cloud services and deployment strategies. I excel in teamwork and communication. I led the integration of advanced Node.js algorithms, improving website performance and scalability by 50%, which resulted in a 30% increase in user engagement and a 25% boost in retention rate.

Education

2021/08 – 2021/11 Abuja, Nigeria	**HSE (Level 1,2 & 3)** *Formazione Business School*	
2015/10 – 2019/10 Kebbi State, Nigeria	**Bsc. Biochemistry** *Kebbi State University of Science and Technology*	

Professional Experience

2023/07 – present
Lagos, Nigeria

FullStack Software Engineer
Decagon
- Proficient in Javascript/Typescript ecosystem for scalable and high-performance applications.
- Implemented a robust RESTful API infrastructure for an artisans-client application, optimizing performance and scalability, resulting in a 50% improvement in response
- time and enabling the application to handle more current users.
- Improve code quality and maintainability through testing and code reviews, reducing software bugs by 25%
- Proficient in SQL and No-SQL databases, optimizing data storage and retrieval for enhanced system performance led to a 30% increase in application performance.
- Pioneered Agile methodologies, particularly SCRUM, to streamline application development processes, resulting in a 40% reduction in time-to-market and a 25%
- increase in team productivity.
- Optimized workflows using project management tools like Jira and Slack led to a 30% increase in task efficiency and a 20% reduction in project completion time.
- Version Control: Implemented Git for efficient collaboration and on-time project delivery.

2021/01 – 2022/03
Ogun state, Nigeria

Process Engineer
Drury Chemical
- Optimized chemical processes with a focus on efficiency and safety result in significant achievements, cost savings, and process improvements
- Collaborated cross-functionally to implement process changes while ensuring compliance with industry regulations and safety standards
- Conducted experiments and analyzed data to identify root causes of process deviations and implement corrective actions
- Provided training and guidance to junior engineers, enhancing team efficiency and knowledge sharing.

| 2022/04 – 2023/06 | **Software Engineer** |
| Anambra, Nigeria | *IcezTech* |

- Facilitated stakeholder collaboration by providing regular updates and gathering project requirements, resulting in a 20% decrease in project delays and a 15% increase
- in stakeholder satisfaction.
- Emphasized skill enhancement within the team via structured training sessions and workshops.
- Led software development efforts by coding, implementing pivotal features, and resolving issues, resulting in a 30% reduction in post-release defects through
- comprehensive testing and control protocols.
- Delivered flawless code, meeting tight project deadlines and achieving a 20% increase in on-time deliveries.
- Monitored industry trends for tech integration, resulting in 25% less tech obsolescence and 20% improved system efficiency

Certificates

- Certified Scrum Fundamentals. ⌇
- EF SET Certification

Projects

| 2023/12 – present | **Closestead** |
| | Crafting an online property management solution, optimizing short-term apartment rentals. Anticipating the management of 500+ apartments, boosting efficiency by 40%, and reducing vacancies by 25% when completed. |

| 2024/06 – 2024/07 | **Game-hub** ⌇ |
| | Developed a dynamic game-hub application using ReactJS, handling over 10,000 concurrent users, integrating game APIs, enhancing user engagement by 35%, achieving 99.9% uptime on Vercel, and ensuring secure authentication with OAuth |

| 2024/01 – 2024/02 | **StratusGrowth** ⌇ |
| | Developed a static business website to empower business owners to maximize revenue potential. It resulted in a 30% boost in user engagement and a 20% increase in conversion rates. |

| 2023/08 – 2023/11 | **Elegance Art Gallery** ⌇ |
| | Enabled global artist exposure and curated art selections for enthusiasts, driving a 50% |

sales increase and expanding the community by 30%.

2024/05 – present	**Emaily** *Feedback Collection app* Building a sophisticated application aiming for a 20% survey completion rate (30% above the industry average), gathering 40+ surveys monthly, targeting a 40% reduction in response time through a 50% increase in email open rates, and integrating new features for a projected 30% customer satisfaction improvement.
